SURPRISE SPRUNG IN TRIAL AT KIEV

Police Say Landau Was in Kiev on March 24 Despite Testimony of the Defence.

Kiev Russia. Oct. 20 .- A surprise was sprung by the prosecution today during the trial of Mendel Belliss, for the mur-

the trial of Mendel Beiliss, for the murder of the Christian boy. Andrew Yushinsky, in March, 1911.

Documents were produced to counter the evidence of the defence that the men, Landau and Ettinger, who had been said to be implicated is the crime, were merely harmless visitors to Riev and quite unconnected with the murder.

The books of the police department showed that Israel Landau, who crossed the frontier in October, 1919, recrossed on March 28, 1911, a few days after the discovery of the murder. According to the police, Israel Landau was in Kiev on March 24.

Landau testified that his father, Israel Landau, died in 1993 at Kiev and was buried in the Jewish cemetery. He also swore that he did not know of any Israel Landau or any other Landau outside his family.

The court admitted the documents, but on demand of the defence, ordered the prosecution to procure details regarding Israel Landau by Wednesday, otherwise the defence would be authorized to obtain the particulars from

Another important benefit to Japan will be that of permitting her to send direct to Brazil, and later possibly to other countries, Japanese emigrants who are expected to go to South Amer-ica in increasingly large numbers. Five thousand laborers were sent to Brazil inst year; 3000 were transported this spring, and an additional three or four thousand departed during the month of September—all to labor in the coffee fields of Brazil. The steamers carrying these emigrants now pass by way of the Suez canal. They will go by Panama as soon as the new water way is opened.

Situation and Reasons For New Ruling Explained by Bankers.

Border banks from Laredo to, and inluding, El Paso have shifted onto the owners of Mexican money, where they say it rightly belongs, whatever risk there may be in handling it on account of fluctuating values. The clearing house has issued a circular letter to all Mexican money depositors giving the details of the new plan of handling this class of funds, which plan became effective at the opening of banks Monday morning.

day morning.

Reasons for Banks' Decision.

This statement says that conditions in Mexico have injected the element of risk into the business of handling Mexican money and Mexican exchange. As the Mexico City banks no ionger allow the Banks even nominal interest on their baiances, and as there is now no opportunity for leading Mexican money safely, the banks of El Paso cannot make a profit on Mexican money deposits to compensate them for the risk, the circular says. After giving the matter serious consideration in an effort to arrive at some basis that will allow business to continue with as little interruption as possible, but will place the risk where it should be—on the owners of money, the clearing house banks are patting into operation the plan of accepting the money, giving it vault room and using their best judgment in placing it with the best banks in the republic and yet not assuming the risk.

J. S. Haynolds, president of the First National bank, Monday explained, for the benefit of Herald readers, the new plan and the situation which made it necessary to have a new plan. "In receiving Mexican money on deposit we get currency, checks and drafts on Mexico City or interior banks of Mexico." Mr. Raynolds said. "We send them by mail for collection, three-fourths of this clars of deposits being drafts. When a man deposited a draft or currency here in El Paso, heretofore the banks have given him a recept for it and paid him in American money at the ruling rate, or Mexican money if he wanted it.

Bunks Will Receive Mexican Money. Received For Collection.

Banks Will Receive Mexican Money.

"The long continued disturbance in Mexico has caused the banks to shift the responsibility and liability for Mexican funds onto the owners of the money, the place where the responsibility really belongs. At present the banks can do nothing with Mexican money. But we are perfectly willing to give vault room for it and use our best judgment in placing it with best banks in Mexico City and the interior banks. The banks are not disinclined to receive Mexican money, but are giad to do everything they can to further the trade relations with Mexico, but they must protect themselves."

The plan is not confined to El Paso for the banks along the border are working this problem out in the same way, local bankers say. Banks Will Receive Mexican Money.

MEXICAN PESOS BRING
HIGHER PRICE THAN BILLS
The Mexican sliver peso is worth 19
cents more than the Mexican one peso
bill, according to the price quoted
Monday by local banks. The peso can
be exchanged for 45 cents in American
money, while the bill is worth today
only 35 cents. The peso is worth 58
and a fraction cents, intrinsic value,
for the silver it contains.

Ugly Sores Quickly Banished

You Marvel How Worst Sloin Eruptions Disappear as Result

If you should meet anyone varnish ing a sure with grensy cintment, your best advice would be to quit such things

and attend to the blood. To successfully fight any blood trouble, some eruptive akin disease—call it eczama, lupus, psoriasis, malaria, scrofula, or what you will—there is but one sure, safe way to cure it. Ask at any drug store for a \$1.00 bottle of S. S. S. and you are then on the road to health. The action of this remarkable remedy is just as direct, just as positive, just as certain in its influence as that the sun rises in the east. It is one of those rare medical forces which act in the blood with the name degree of certainty that is found in all natural tendencies. The manner in which it dominates and controls the mysterious transference of rich, red, pure arterial blood, for the diseased venous

blood is marvelous, Out through every skin pore acids, germs and other blood impurities are forced in the form of invisible vapor. The lungs breathe it out, the liver is stimulated to consume a great proportion of impurities, the stomach and in-testines cease to convey into the blood stream the catarrhal, malarial germs; the bowels, kidneys, bladder and all emunctories of the body are marshalled into a fighting force to expel every vestige of eruptive disease.

There is scarcely a community anywhere but what has its living example of wonderful curative effects of S. S. S. Get a hottle of this famous remedy to-day, and if your case is stubborn on peculiar, write to the Swift Specific Co., 216 Swift Bldg., Atlanta, Ga.

Do not permit anyone to talk you into some useless compound they put up as a substitute for S. S. S. No honest druggist will do this.
